

CINCINNATI YOUTH COLLABORATIVE: 2022-2023

During the past year CYC has been proud to provide innovative life-changing programs to thousands of young people across Greater Cincinnati. Whether a young person looked for support through a tough time in middle school, needed to be connected to resources for their college aspirations or wanted help to secure and succeed in their first professional position after graduation, CYC was proud to be there. CYC is changing outcomes for young people by connecting them to resources, supports and guidance from caring adults to help them on their pathways to success.

We build transformational relationships with young people, laying the foundation for their success.

We provide experiences and opportunities for young people to discover what is possible.

We remove obstacles young people experience, clearing the path for them to excel.

We create environments for life exploration, planting the seeds for their future.
